

Extract paths from workflows

```
graph TD; A[Extract paths from workflows] --> B[Decompose paths to have smaller tools sequences]; B --> C[Divide unique tools seq. into training and test parts]; C --> D[Classify tools sequences using training part]; D --> E[Evaluate performance on test part];
```

Decompose paths to have smaller tools sequences

Divide unique tools seq. into training and test parts

Classify tools sequences using training part

Evaluate performance on test part
